

PLOUTOSLABS WEBSITE REDESIGN BRIEF

Project: PloutosLabs Mother Website

Prepared by: Chinyere

Date: 4/12/2025

1. Executive Summary

This document outlines the review of the current PloutosLabs website and provides a structured guide for the redesign. The new website will serve as the mother site for all Ploutos products, featuring improved navigation, updated branding, and a cleaner, more professional user experience.

The redesign must strictly follow Ploutos brand identity, color guidelines, and clean UI/UX principles.

2. Audit Review Summary (From Current Website)

A. Header

- Redesign the PloutosLabs logo (new version needed).
- Revamp menu structure and navigation links.
- Update the "Whitepaper" link with new information.
- Update all naming to PloutosLabs consistently.

B. Hero Section

- Add a video background or a high-quality Ploutos ecosystem image.
- Create a short, simple, clear tagline that explains PloutosLabs.
- Change CTA to "Explore Products".

C. About Us Section

Convert to full page: About PloutosLabs, Mission, Core Features.

D. Ecosystem Section

- Maintain or redesign.
- Remove inactive products.
- Move inactive products to "Coming Soon".

E. Product Updates

- Replace Kavipay with Virtual Card.
- Add UI card for Virtual Card.

F. Current Market Section

- Move to Skydda Wallet site.

G. Download App Sections

- Remove from homepage.
- Only on KaviPay & Skydda pages.

H. Footer Updates

- Move Delete Account & EULA to KaviPay site.
- Add social media icons.

I. General Updates

- Follow brand guidelines.
- Improve spacing, layout, hierarchy.

3. New Website Structure

Homepage:

- Header (new logo, clean menu)
- Hero (video/image, tagline, CTA)
- About Summary + Link to Whitepaper
- Ecosystem Overview
- Why PloutosLabs
- Footer

4. Inner Pages

About Page:

- Who we are, Mission, Vision, Features, Roadmap

Products Pages:

- Skydda Wallet
- KaviPay
- Virtual Card
- Coming Soon

FAQ Page:

- General ecosystem-wide FAQs

5. Technical Requirements

- Mobile responsive
- Fast load speed
- SEO optimized
- Brand colors
- Smooth animations
- Clean navigation

6. Developer Deliverables

- Full redesign
- New logo
- Visual mockups
- Internal pages
- Responsiveness
- Testing across devices
